We've had a great beginning to our school year. I am so excited to see how far all of the children have come and it's only the beginning of October. So far the children have learned 20+ signs and quite a few new songs. We will be learning some festive signs this month for the upcoming holiday season, so be on the lookout.

Please visit our school website for my weekly signing videos. I post a new video that focuses on something specific that we are learning and signing each week. Each video is different and can be anything from a song we sing or a game we play during class that you can share, sing, and play at home.
