

March Newsletter

We had a great time in February! The children really enjoyed our map and flag theme. They had so much fun creating their city and flags!

The children's math skills are flourishing! The children count all day. They count how many girls and boys are in the class or at their table. They count how many kids are missing that day, the stairs in the hallway, etc... This month we will work on numeral recognition, more/less, and patterns.

This month our themes are Dr. Seuss, Pete the Cat, rainbows, senses, insects, and plants.

Thank you again for all your contributions and support!

Planned Activities

- Measure our feet
- Make a new hat for the cat
- Explore rainbow and colors
- Explore senses
- Make a Mr. Potato
- Sprout a potato
- Go on a leprechaun hunt
- Go on an insect hunt
