

# MAY/JUNE NEWS FROM MS. CAROLE and MS. JENNIFER

Happy spring! We can't believe the end of our time together is near. We are sad at the thought of parting with this fantastic group of fiends but proud to know they're ready for the next milestone!

Ms. Jennifer and I thank you for your support and sharing your beautiful children with us this year.

In the classroom-

We're observing the life cycle of a butterfly in our classroom. If the children haven't mentioned, we watched the caterpillars enjoy their feast in a jar, play around as they started spinning the silk for their chrysalis, and we're now waiting for the metamorphosis phase. Once the butterflies emerge, we will take care of them until they're ready to be released natural habitat.

We will review letter sounds, numbers, sight words, etc. Also, we will be working on some new projects like Mother's Day and the importance of celebrating mom, summer safety, and fun at the beach and pool. And, we mustn't forget Father's Day!

We look forward to seeing you, your family, and your friends for graduation!

## Dates to Remember

5/2 – No school/Teacher workday  
5/4 – Spirit Day - Outer Space  
5/8 - Mother's Day  
5/11 – Picture day  
)
