End of The School Year

Yay, we made it to the last month of school! The children have thrived this year and are well prepared to move onto Kindergarten. I'm so excited for all the girls and sad that I am unable to spend the last weeks of school with them.

To finish out the year, Tammy and I have prepared fun and educational plans. During the months of May and June, they will continue to work on writing their first and last names and identifying letters and sight words. They will create stories from their imaginations and create great works of art. They will continue to reinforce their math skills in adding, patterns and geometry using many manipulatives and games. And most importantly, they will continue to learn how to play together, resolve conflict, and have fun with each other!

It has been an amazing school year and I am blessed to have taught your children this year. As Tammy takes over as lead, I am confident the change will be seamless and your children will continue to thrive under her leadership. If you have any questions or concerns, Tammy can be reached through email:

Have a Great Summer!
